

PROTOBOARD EIGHTH PINOUT

32 Hole Power, 80 Hole - 16 Linked Columns

Product Information: https://uurnd.com/p/protoboard_eighth

FRONT

BACK

Each row/column connects like a breadboard.

Example:

A-E of Col 0 are connected together.

A-E of Col 1 are connected together.

But Col 0 A-E and Col 1 A-E are separate from each other.

The **Pads** marked **VCC/GND** when bridged by solder will connect the **2xVCC** or **2xGND** channels together
